MEET THE COACH ..... ED JUCKER

IF TRADITION has anything to do with it, the Cincinnati Royals are almost a shoo-in to find themselves right up among the elite of the National Basketball Association when March of 1968 rolls around.

"Win" is the Royals' new coach, Ed Jucker's middle name. In five seasons of steering the climbing basketball fortunes at the University of Cincinnati, the 50-year-old Jucker compiled an amazing won-lost mark of 110 victories against only 28 losses.

The likeable Cincinnati native and UC grad replaces Jack McMahon as head man of the Royals' fortunes. McMahon, who had coached the Royals for the past four seasons, landed the general manager - coaching job with the new San Diego Rockets following the 1966-67 wars.

In his very first year as coach of a major college team, Jucker piloted the 1960-61 Bearcats to the national championship. The winning of the NCAA crown that season climaxed an amazing campaign that saw UC run up a 27-3 record, its fourth straight Missouri Valley Conference title and 22 consecutive victories.

As a result, "Juck" was acclaimed as Missouri Valley Coach of the Year and was fourth in balloting for UPI's National Coach of the Year. He accomplished it with a team that didn't even have a single player named to any of the All-America selections that appeared at the end of the regular season.

The following year, Ed's Bearcats raced to a 29-2 won-lost mark and again snatched the NCAA crown along with the Missouri Valley title and the Holiday Festival Tourney crown as well.

His Bearcats whizzed through a 28-2 record in 1962-63, but had their quest for a third straight national championship put down when Loyola of Chicago shaded the Cincinnatians in overtime in the final game.

The two consecutive NCAA titles in 1961 and 1962 were feats accomplished only five times in the history of the event.

"Juck" succeeded George Smith in the wake of the so-called "Oscar Robertson era", the days of fast break basketball that brought great fame to UC. In its place, Jucker introduced a deliberate, pattern offense and placed great emphasis on defense. The result was far from any overnight success—the Bearcats had a 5-3 record in Jucker's first three weeks—but as the system caught on, the victories mounted.

Ed has put his basketball ideas and techniques down in writing, with the result that his "Cincinnati Power Basketball" was published by Prentice-Hall, Inc., and sold more copies in one year than any other basketball book ever written.

Jucker had been director of intramurals at UC since giving up the head coaching job for personal reasons following the 1964-65 campaign and last summer, he worked with the Spanish National Junior team in Madrid, giving clinics and preparing the young Spaniards for the European tournament in Italy.

Ed, his wife "Joanie" and four youngsters, Steve (13), Judy (12), Karen (10) and Ken (5) live here in Cincinnati where he is employed in the off-season by the R.C. Cola Bottling Company.
